CONGRATULATIONS on your new puppy! Your puppy may or may not have received initial deworming and the first vaccination of a series of shots. Be sure to ask the breeder if he/she has any of this information for you and your veterinarian.

The initial visits and vaccination series:

At your first visit we will also discuss:

- ✓ Flea & tick prevention
- ✓ Heartworm prevention
- ✓ Optional vaccinations
- ✓ Spay/Neuter +/- Microchipping

Optional Vaccines include:

- **Lyme Vaccine:** to decrease your pets risk of Lyme disease caused by ticks infected with *Borrelia burgdorferi*
- **Kennel Cough Vaccine:** while optional, these vaccinations may be required if your pet will be going to training classes, the groomer, & Canine Flu Vaccine: a boarding kennel, or if your pet frequents a dog park
- **Leptospirosis Vaccine:** for pets that frequently come in contact with wildlife and/or standing water to decrease your pets risk of a bacterial infection caused by *Leptospira* species
